There was an error accessing the links for the financials. It was requested that the financial reports be sent via email to the committee members.

Chief Smith stated that vehicle maintenance was nearly maxed out, with no update on the new police interceptor arrival date. The money from the sale of prior police interceptors was confirmed to go back into the general fund. The Asset Forfeiture and K9 Balance Sheet remain

unchanged. Activity reports were reviewed and calls for service as well as mutual aid between agencies was discussed.

9. Recommendation to Authorize Extending Lease Agreement with 3 Degrees Ventures LLC.

Motion (Clemens/Strasser) to recommend authorization to extend lease agreement with 3 Degrees Ventures LLC to Finance. The lease cost is just under \$16,000 annually. Smith noted this is an aging building designed for commercial use. While the building is meeting current needs, the design makes law enforcement activity challenging. Clemens asked if a cost analysis had been done in the past to build a comparable building. Strasser noted the current lease agreement has an estimated cost of \$80,000 over a five year term. Hansen briefed the committee on discussions of the proposed Fire Department building with a possibility of a Police Department building and addressed concerns for cost sharing between the Town of Westpoint, Town of Lodi and the City of Lodi. Those discussions are ongoing. Roll call vote taken- Aye (Clemens, Hansen, Strasser); Nay (0). Motion Carried.

10. Recommendation of Adoption of Ordinance Concerning the Director of Emergency Management

Motion (Clemens/Strasser) to recommend the adoption of Ordinance Concerning the Director of Emergency Management as submitted to Common Council. Groves-Lloyd stated the City is working on emergency operations planning and by ordinance; the city needs to have a Director of Emergency Management. Ostrander stated that currently, there is no language in ordinance for a Director of Emergency Management and 78-3 A. (7) addresses this. It also gives the Mayor the responsibility to appoint someone. Roll call vote taken- Aye (Clemens, Hansen, Strasser); Nay (0). Motion carried.

The Pond St. project is now complete with curb and gutter on both sides. Pond St. currently has parking on both sides of the street. A limitation of parking in this area, when events were scheduled, was discussed. Hansen noted the Fair St. construction project may also limit parking due to a changeover from the current angle parking stalls to parallel parking stalls. Clemens asked if the city had looked into widening Pond St. Staszak indicated that while it had not been done for Pond St., it could be looked at for future reconstruction projects. Hansen/Stevenson indicated additional discussion should take place with the residents on Pond St. regarding one-sided parking. Ostrander indicated she would follow up on this.
