

Public Works & Utilities Agenda Item Summary Sheet

Meeting Date: July 5, 2022

Item: Verizon Cell Tower Infrastructure at 296 Or 300 Prospect Ave

Lead Staff: Brenda Ayers

Author: Brenda Ayers

Agenda Attachments: Email from Jennifer McMillan

Requested Public Works & Utilities Action: Discussion and recommendation on site and leasing of ground space to Verizon for compound expansion

Background:

Jennifer McMillan, Site Acquisition Manager at Mountain LTD, reached out to me last week. Verizon is interested in tower space to improve service in the City of Lodi. The initial inquiry was to collocate on the US Cell Tower at 296 Prospect. Columbia County recently reached out to Verizon expressing interest for them to collocate on their tower at 300 Prospect.

The Columbia County tower is a bit taller than the US Cell site. Either site would require the leasing of +/- 400 square feet of ground space from the City to expand the compound.
